> > Hello, I spoke with Tammy on the phone today about completing a fast track building permit. I am replacing a failed frost wall with 4 new footers and frost piers. The frost wall supports the beam which carries the homes covered and enclosed porches. We will remove deck boards and the front stair in order to gain access to the foundation of the decks. Once the foundation work is complete, we will replace the deck boards and stair and fix any trim. We will also be re-jacking the porches to their proper height.
