---

To Whom This May Concern:

Attached is the Permit Application, Floor Plan, and Scope that has been requested. I apologize to all for not being able to produce all of this yesterday.

Please keep us posted on the approval process with this application. We're really hoping for the two day turn around as mentioned in meetings with the Code Enforcement.

Everyone involved has a strong motivation to move forward in a safe and compliant manner. Thank you for your cooperation throughout this process, and we're willing to do whatever we need to on our end to continue creating a cooperative and cohesive relationship.

Thank you,

Ryan Lessard
