18. Asbestos Abatement Methods and Alternative Work Practices (check all that apply)

- ☐ Regulated area with containment consisting of 2-layers 4 mil poly on walls & ceiling & 2 layers 6 mil poly on floors
- X Regulated area with containment consisting of 1-layer 6 mil poly on walls & ceiling & 2 layers 6 mil poly on floors
- X Regulated area with Exclusion zone
- X Glovebags (unlimited non-contiguous, contiguous limited to 30 ln ft)
- ☐ Adhesive by grinding or bead blasting
- ☐ Wrap & cut- TSI in good condition (no containment)
- ☐ Intact flooring demo by heavy equipment
- ☐ Roofing removal by mechanical saws/cutters
- ☐ Flooring by mechanical equipment/ice scrapers/pry bars
- ☐ Enclosure
- ☐ Wetting ACM during removal not required
- ☐ Exhausting to Ambient Air not feasible
- ☐ Aggressive Air Clearance not required
- ☐ Visual Clearance only
- X Remote Decontamination Unit
- X Smaller than standard Decontamination Unit
- ☐ Shutting down NAM at night
- ☐ Encapsulation

Note on AHERA School Projects

The Federal Asbestos –Containing Materials in Schools regulation (40 CFR Part 763) commonly referred to as "AHERA" contains specific requirements for asbestos abatement activities that may not be waived by the Department. Among these are air clearance and sample analysis protocols.

19. Waste Transporter (Must be ME DEP licensed Non-Hazardous Waste Transporter)

22. Emergency Notification (oral notification must be made within 1 working day of the emergency)

Complete when a waiver to the standard notification period is requested for an emergency asbestos removal project which is necessitated by a sudden, unexpected event such as non-routine failures of equipment or by actions of fire and emergency medical personnel pursuant to duties within their official capacities. Written emergency notification must be received by the Department as soon as possible, but no later than 72 hours after the emergency.

Any required notification fee for the emergency project shall be received no later than 3 days after the emergency notification is submitted.

Detailed Explanation (Include the date and hour on which the emergency occurred) _____

23. Notification Timeframe Waiver Request (must be received by MEDEP at least 24 hours prior to the start of the project)

Complete when a waiver to the standard notification period is requested when reasonable planning & foresight could not have predicted the event & other notification procedures would not suffice to protect public health & the environment. Examples include discovering additional asbestos-containing material during a renovation or demolition for which an asbestos inspection was conducted (e.g., within a wall cavity or plumbing chase), a public health threat exists or will develop (e.g. clean up following a fiber release episode), or unforeseeable circumstance (e.g., boiler & associated piping/valves failure).

Any required notification fee for the notification timeframe waiver project shall be received no later than 3 days after the notification timeframe waiver notification is submitted.

Detailed Explanation ***Real Estate Transaction and additional materials discovered in demolition impact survey***
