DOOR NOTES:

1. Magnetic hold open devices shall be interconnected with fire alarm system.
2. Privacy locksets are to have feature that door can only be locked while the door is shut. If door is open and button is pushed lockset will automatically unlock when the door is shut.
3. All interior swinging doors are to have silencers and wall mounted door stops.
4. Guest room, Laundry, and meeting room doors to have sound insulating strip applied to each door frame
5. Guest room entry doors to have night latch solid bar door guard with protective plate (Ives 482 or equal)
6. 180 degree door viewer mounted at 60" at all guest room doors
7. 180 degree door viewer mounted at 48" at all barrier-free guest room doors
8. 16 gauge frames at interior locations & Flush doors
9. Closers to be mounted on opposite side of common areas and to the interior of stairwells
10. All guest bathroom thresholds are supplied and installed by the flooring subcontractor
11. All guestroom doors to have gasket seals S88 w/ full mortise automatic door bottom.
12. Knob and plate secondary secure latch at all guest suites
13. Wall mounted door stops
14. Laundry and main kitchen doors to have (2) armor plates each door slab.
15. Provide (2) coat hooks for public restroom and employee restroom doors one meeting ADA
16. Provide kick plates for public restrooms.
17. All thresholds at doorways shall be 1/2" max. in height.
18. Door handles, pulls, latches, locks, and other operable parts on accessible doors shall have a shape that is easy to grasp with one hand and does not require tight grasping, pinching, or twisting of the wrist to operate (lever handles).
19. Door closers shall be adjusted so that from an open position of 90 deg., the time required to move the door to an open position of 12 deg. shall be 5 seconds min.
20. Door spring hinges shall be adjusted so that from the open position of 70 deg., the door shall move to the closed position in 1.5 seconds min.
21. Interior hinged door: 5.0 lb max. opening force.
22. Automatic doors shall comply with ANSI/BHMA A156.10 listed in Section 105.2.4.
23. All fire-rated door assemblies to be positive pressure tested per IBC 715.4.1.
24. Wood veneer to receive stain shall be clear vertical grain douglas fir.
25. Face laminate to be high pressure decorative laminate .050".
26. Locking mechanism must allow entrance upon fire alarm activation.
27. Meeting rooms must have a tamper proof 1-way viewer looking into meeting room.
