Hello, thanks for checking to see that my application is in the works.

As I indicated on the phone, we've increased the size of our 20x40 kitchen tent to a 30 x 45 tent instead, and the flame cert is attached.

And in fact, now that I think of it, I want to make sure I put the right information down for the stage set it. It's a 20x20 stage that is 1ft of the ground, and we have a 20x20 frame tent covering it; also from A-plus. The other tents will all be 10x10 canopies.

Please advise what the next steps are, and what check-list of things I should make sure are all set for the day of the event.

Thank you!

Sarah
