ELECTRICAL ACCESS:
MC Sign is only responsible for connecting to electrical power within six feet, provided access exists. Dealer is responsible to have primary power with CLEAR access available prior to installation of signage. If anything on site is changed AFTER the initial survey (i.e. electrical, façade work, etc.) and MC Sign is not made aware of the change before the install, they will not be responsible for any additional charges that may occur. If a return trip is required because of a change made, additional survey fees may apply.
