RE: The Drink Exchange Sign

To Whom It May Concern:

The Drink Exchange LLC would like to install the sign at the current location of 43 Wharf Street. This would be a simple install. We would use the current sign (made from wood, painted black and sheet metal sign screwed into it). All we are doing is replacing the sheet metal with our logo as proposed in Example 1.

We will also be using the same bracket that housed the round sign and replacing it with a metal ring that holds a replica of the bull found in front of the NYC stock exchange.

Please let me know if you have any questions.
