I'm inquiring about the permit status of 562 congress street permit number 201302606. I've checked the website but haven't seen a status change.

Hi Pat,

Thank you for this information, I am including the Zoning Administrator, Marge Schmuckal on this reply for her information.

Jeanie

Jeanie,

I've tried getting in touch with someone regarding the hold note on the website. The Zumba/Cardio room is just for employees of Diversified Communication and is not intended for use by the public. Currently the drawing 9/A2.02 shows a vinyl film graphic to be applied to the windows to allow some privacy for the employees during classes.

States "vinyl film, graphic design to be determined"

Please let me know if you have any questions,

Thanks,
Pat
