Re: Portland Museum of Art, Sweat Gallery – exterior lighting and security camera for sculpture garden

Dear Nick,

This office has approved your application on behalf of the Portland Museum of Art to install an exterior light and a security camera on the Sweat Gallery building. Approval was based on the plans and specifications included in the application dated May 16, 2016, and comes with the following conditions:

1. The mounting and body of the camera (everything but the lens) will be painted dark to match the light fixture.
2. Conduits and wiring are to be hidden from view.

All improvements shall be carried out as shown in the plans and specifications submitted to staff on 5/16/16, except as specified above. Changes to the approved plans and specifications and any additional work that may be undertaken must be reviewed and approved by this office prior to construction, alteration, or demolition. If, during the course of completing the approved work, conditions are encountered which prevent completing the approved work, or which require additional or alternative work, you must apply for and receive a Certificate of Appropriateness or Non-Applicability PRIOR to undertaking additional or alternative work. This Certificate is granted upon condition that the work authorized herein is commenced within twelve (12) months after the date of issuance. If the work authorized by this Certificate is not commenced within twelve (12) months after the date of issuance or if such work is suspended in significant part for a period of one year after the time the work is commenced, such Certificate shall expire and be of no further effect; provided that, for cause, one or more extensions of time for periods not exceeding ninety (90) days each may be allowed in writing by the Department.
