CITY OF PORTLAND ME.
BUILDING DEPARTMENT

To Building Plan Reviewers: **2-24-16**

This letter and permit application go along with permit #2015-00214

The reason for the following permit application is to take a bedroom from the established 2nd/3rd floor 4 bedroom apartment and add it to the 2 bedroom 1st floor apartment. The cost for this work will be minimal it will be basically adding one door location and blocking off another. This change will enable my wife and myself to have a guest bedroom and den to use when we come up to visit my daughter who is living in the 1st floor apartment. The door changes were discussed with the Fire Chief and the Building inspector upon my last inspection and they both thought this would be a good way to change the space and still meet building and fire codes.

Sincerely,

Bob Terenzoni 781-844-6367
