Subject: 113 Winter St
Attachments: 113 Winter Permit.pdf; 113 Permit App.jpeg

To Whom it May Concern:

I am attaching elevations and framing details for a permit to renovate at 113 Winter Street.

I am still ironing out window details with Historic Preservation, and as such do not have a window schedule included (yet). Likewise my meeting with the HP Board has dictated changes to the interior (no new floor plans yet). I am submitting what I have to date because the sill plates at the back of the rear unit are totally, completely rotten, and I need a permit to get rolling on that aspect as soon as possible.

Also, am I correct in understanding that the HP Board fee ($100) will partly cover the cost of the permit?

If you have any questions please email or call me at 317-0825.

Thank You,

Seth White
