Component Descriptions

These recommendations are for railing with a 4" gap from deck surface to the bottom of the bottom rail. Always refer to your local building codes to determine if other requirements must be met. Canadian requirements may vary.

TimberTech RadianceRail and AZEK Black and White rail sections are available in 10 ft. sections. See your local TimberTech or AZEK Dealer for more information.

Please note: if you have selected New Kona, New Morado, or New Acacia, these boards should not be used with older boards of the same colors due to the difference in construction and lifespan of the deck boards.

Lumber Materials

COMPONENT	QTY	DESCRIPTION	WOOD TYPE
Internal Joist	10	2X8X8 Treated	TREATED
Beam	6	2X10X10 Treated	TREATED
Beam	2	2X10X18 Treated	TREATED
Beam	2	2X10X12 Treated	TREATED
