Project Description: New fence with arbor gate to enclose rear yard

2-27-18

Good Morning,
Attached is a fast track permit application to build a fence with an arbor gate on the rear of my property at 22 Dow St. The fence is entirely on my property.

I have attached a detailed front elevation of the fence with dimension. The other sections of fence for which I did not draw elevations are simply stockade style segments of the same height. You can see the complete layout of the new fence in the top view.

Total cost of the project will be less than $1000.00.

For historic,
Visibility. The only sections of the fence that will be visible from the street (Horton Place) will be the rear section facing the abutting parking area of my eastern neighbor on Horton Way, and possibly a couple of inches may be visible over the top of the deck at 20 Dow St., once that deck is rebuilt. If the fence at 20 Dow is rebuilt as it was before demolition, this new fence probably won't be visible at all other than the rear (east) side.

Color. The fence will be stained dark red, similar to the previous fence (shown in photo).

Other Notes. The apt building at 22 Dow is a noncontributing structure.

Documents Attached (combined in one Pdf)
Fast Track Schedule C
