7. Being office work, the activity related to my home office will produce no offensive noise, vibration, smoke, dust, or other such impacts to the neighborhood.

8. The sole non-residential employment is one part-time assistant.

9. My home office will generate no traffic in greater volumes than would normally be expected in a residential neighborhood.

10. There are no vehicles in excess of 6,000 pounds related to my office work.

As you can see, my home office is a secondary and incidental use of my residence. The external activity level and impact is negligible and in keeping with the residential character of the neighborhood.

I understand that you have already received as part of the permit application a copy of floor plans showing my entire dwelling and the area of the home occupation space.

Thank you for your assistance in this matter and let me know if you require any additional information.

Sincerely,

Roger Mullen
