RE: ICE POND DAM REPAIR, PEAKS ISLAND
PEAKS ISLAND LAND PRESERVE

Dear Barbara,

Attached is a Level I Application for the repair of the dam at the Ice Pond on Peaks Island. This project is being reviewed by the Army Corp as well as DEP. The DEP has two standards for this project. They determined the pond is part of a stream so the NRPA Standards apply. The dredge material, approximately 200 cy, must comply with Solid Waste Standards.

Attached for supporting documents, are drawings showing the repair and dredge place area, and a soils report from S.W. Cole.

As you can see in the photographs, the center section of the dam is in need of repair. It is hoped that all permits will be in place to allow that to occur in September. Any help you can provide processing this application would be appreciated.

Sincerely,

PINKHAM & GREER,
CIVIL ENGINEERS

Thomas S. Greer, P.E.
