Subject: Main Line Fence | Oldham - 154 Island Ave Building Permit
Attachments: Oldham Building Permit - 154 Island Ave - Main Line Fence -2016.pdf

Good Afternoon,

We are replacing the existing stairs for a customer on Peaks Island at 154 Island Ave. Attached is the permit application, site layout, details and specifications. We will be paying the permit fee, so please send the invoice to me.

The last set of stairs extending from the last landing to the beach will be a manufactured, aluminum removable stair from this company: http://metallicladder.com/product/removable-aluminum-stairways

Please let me know if you have any questions or need anything else for processing the building permit. This is my first attempt at doing it electronically, so hopefully everything is there.
Thank You,

Ryan Cianchette
Project Manager | Estimator
