Ann

The resident on the top floor just called and said he is on the way back to North Carolina now

The three units were rented for two months : both first and second floor paid for two months but vacated with half a month to go in the lease - no less than a month lease as per codes.

> When you say "they were out of state residents only here temporary" what exactly do you mean by that? Were you renting the units on a less than monthly basement? Please explain more completely how you were "renting" the units.
