

## Building Demolition Notification Form (BDNF)

### A) Pre-Demolition Building Inspection and Abatement Information

**Important Notice: This Notification is Required by Law**  
 prior to demolition of any building except residential buildings with less than 5 units

Federal Law requires that prior to demolition "regulated facilities" be inspected for asbestos, that certain work practices be followed for larger projects (>160 square/260 linear feet), and that notification be provided to DEP. "Regulated facilities" include institutional, commercial, public, or industrial buildings, and residential buildings with 5 or more units.

Maine Law requires, prior to demolition, the removal of more than 3 square feet or 3 linear feet of friable asbestos by an asbestos firm licensed by the DEP. Notification of removal activities and removal standards are also required.

Demolition means the tearing down or intentional burning of a building or part of a building.

Municipalities are requested to have applicants for demolition permits complete this form prior to the issuance of a demolition permit. A municipality may wish to consider whether it should issue a demolition permit to an applicant for a "no" answer to any of the questions below. Please call (207) 287-2651 with any questions.

Please answer all questions:

1.  yes  no Is this a residential building with less than 5 units?
2.  yes  no Has the building been inspected by a DEP licensed asbestos consultant?\*
3.  yes  no If asbestos was found, has a 10 day notification of abatement activities sent to the DEP?\*
4.  yes  no  n/a Has the asbestos (if any) been removed by a DEP licensed asbestos contractor?

Notes: \*Residential dwellings with less than five units are exempt from notification and inspection requirements

\*\*This form constitutes notification when asbestos is not present in the building being demolished.
