To Whom It May Concern,

I am writing reference to building permit #2014-02566 dated 12/17/2014. This permitted work was not completed due to unforeseen circumstances and I would like to complete this project now. I am submitting all of the documents and a new application as directed by your office. There are no changes to the project that was permitted previously.

I am hoping that this permit can be reinstated for no, or minimal, fee given that there are no changes and the project is approximately 1/2 complete. The reason for the suspension of work is that shortly after I received the foundation inspection I sustained a shoulder injury that caused me to miss several months of work. Due to this I was unable to secure the the financing needed to complete the project. I have now recovered, have my funding in place, and would like to get this house done.

Any help and consideration you can offer will be greatly appreciated.

Sincerely,

Steve Bourey
