Subject: Re: 135 Wayside St, Portland - FAST TRACK PERMIT APPLICATION
CC: David Dardano <david@dardano.us>
Attachments: Existing Bathroom Plan.pdf; Future Bathroom Plan.pdf; Framing Wall Details.pdf

Attached please find additional documents to accompany the above-mentioned permit application.

We have assumed the entire package does not need to be submitted, just the additional documents.

An expanded bathroom plan has been provided (before and after) with notes indicating wall types. A framing wall detail sheet that refers to these notes has also been provided.

No structural modifications or structural walls are involved in this project. Therefore, no cross sections are included since that information is evident (top plate, bottom plates) in the framing details.

Please respond to Dave Dardano of Dardano Construction at david@dardano.us or contact him directly at (207) 831-2137

Sincerely,

Mick Dunn
