| Page 2 | Drawing of the placement, same location as old shed |
| Page 3 | Picture of the house, showing old shed, from the street |

Shed Application to remove old 8'X8' shed and install a new 8'X8' shed. The Shed is made by ShedsUSA. It will look like this picture, light gray with white trim and black shingles and sitting on blocks. I have included the site drawing showing dimensions from property lines and the house. The sidewalls are 4' high and the peak will be 8' high, same as old shed.
