Dear Neighbor,

As part of the permit process in Portland, the city requires I write to inform you that we will be excavating our existing garage and breezeway structure at 21 Wayne Street within the next 30 days. Shortly following the excavation, ground will be broken for a foundation, followed by construction of a new garage and mudroom. The demolition of the existing structure will likely be loud, but will not take that long. From what I understand it's a day or so, but if anything changes I will let you know.

Please let me know if you have any questions.

Warm regards,

Kendra & Mitch
