Subject: Demo 38 Columbia Rd.
CC: Tammy Munson

Laurie,

Chuck and I went out to 38 Columbia Rd. (2014-01274)., and checked the property. Power was disconnected along with gas. Property owner advised that he submitted with the permit application, that water and sewer have been disconnected. Also submitted was an abatement letter stating there is no Asbestos in the building. It appears that he is ready. Probably should check the application file for docs.

Thanks,
Doug
