Attachments: signedlease.pdf

Ann

Please see attached signed lease.

In response to your questions..

Yes we will have seating. The two round shapes on our floor plan are tables. Our plan is to have 2-4 tables with no more than 12 chairs depending on available space. I believe code states no more than 12 seats, Please correct me if I am wrong.

Pizza catering is simply delivery service.

Please feel free to contact me with any questions or concerns.

Subject:360 Cumberland Ave. - Permit #2015-00921

Patrick -

I'm sorry that it has taken me so long to start reviewing your permit for zoning. I need a couple of things from you before I can sign off.

1. I need a copy of your lease (the first page and the signature page) to show that you are renting the space. Please send the pdf directly to me.

2. On your application, you say that your use is gourmet pizza catering and take out restaurant. Are you going to have any seats for customers to eat in? Your floor plan showed the two round shapes near the door. Are those tables? If so how many chairs total? Also what do you mean by "pizza catering"

As soon as I get this information I can sign off for zoning.

Let me know if yo have any questions.
