Good afternoon,

Portland Pump is going to be removing an underground tank @ Hertz Rent a Car 1049 Westbrook Street on December 4, 2013. The tank location is in front of the building under the concrete pad. Once the tank is removed we will back fill with clean fill and compacting it every 12 to 18". The last approximately 4" will be paved to match the existing pavement

Thank you

Rik Jordan
Construction Manager
