Hi Jennifer,

I don't have a previous permit, I am just going from the city of Portland website that shows the shed was put on the property in 1980. No worries, I've got plenty of room back there and am happy to move it over a couple of feet. I am confirming that I will move the new shed 5 feet from the existing lot line when it is replaced. Thanks for your help. Do you require any other documentation other than this? Thanks for your prompt response.

Best,

Jessica
