20: LANDSCAPING AND LANDSCAPE PRESERVATION (14-526 (b) 2a)

Preservation of trees and preservation within required zoning setbacks (Technical Manual, Section 4)

Trees have been preserved within the zoning setbacks. The proposed landscaping is designed in accordance with City standards.

Protection measures of existing vegetation during construction

Existing vegetation outside of the development area will be preserved to the greatest extent possible.

Protection measures within Shoreland Zone, if applicable

The proposed project is not located within the Shoreland Zone.
