User: User Age: 5 to 12
Accessibility: Ingrater
Colour: Custom
Surfacing Type: TBD
Border Area:
Border Perimeter:
Installation Style:
Inground 4'
Compliance:
ASTM F 1487, CPSC
Sales Rep: MS

Note:
- All border dimensions are approximate. Dimensions of all play structure dimensions are underwater centre of the posts unless otherwise specified.
- The locations of all telephone, gas, cable, water, gas and electrical lines must be clearly marked by the customer prior to the installation of the play structure.
- All playgrounds must be installed with safety surfaces that meet the requirements of the Canadian Standards Association (CSA) and ASTM standards.
- The playground installation site must be properly prepared to the specifications and specifications prior to installation. Henderson Recreation assumes the playground installation area has normal soil and digging conditions and is free of any unusual soil conditions or hazardous materials.
- Henderson Recreation Equipment Limited is committed to continuous product development and improvement. Henderson reserves the right to improve, alter or discontinue products and specifications without notice.

*Attention:
- To ensure proper impact zones that are required to be outside of the safety surface area must be free of any obstacles such as trees or structures. Look also beyond traffic flow around the safety surface area. Any playground equipment items that are within the safety surface area must be free of all obstacles.
