CITY OF PORTLAND, MAINE RESURGAM
Reviewed for Code Compliance
Inspections Division
Approved with Conditions
Date: 02/05/18

To supplement the response to your first comment in the original email – please find attached the photos of a rec built self-storage facility with ADA signs and pull-up straps. Our client intends on using this method for the 18 AD accessible containers if this is acceptable to your Department. The ramp shown in the pictures will not be used. we'll build the gradual slope and landings with pavement as outlined in the ADA exhibit.

Please let me know if you have any questions.

Thanks,

Sam
