BISSELL BROTHERS TASTING ROOM

The Bissell Brothers tasting room and retail space is located in the same production brewery. There are two rooms totaling 270 square feet that we when we rented the facility. In this space, patrons are able to see the brew through a window in the partition, purchase cans of beer to-go, tee shirts & other merchandise, and sample the beers were have in production, sitting at 5 tables with stools in the two rooms.

There are 5 doors out of the tasting room. Two are exits to the exterior of the building and the parking lot, 3 lead into the two units that compose the brewery.

The furthest point anyone could be from egress to the exterior of the building would be 12 feet.

We serve two sizes of samples for customers, and these samples are served in glassware. After use, the glassware is cleaned in either a 3-bay sink adjacent to the tasting room worker's area, or a dishwasher adjacent to the serving window.

There are lit EXIT signs above both doors to the parking lot, and one has emergency lighting that will come on in the event of a power outage.

There is a public restroom with 4 feet of egress.

There is a fire extinguisher maintained within the tasting room space, as well as one on the inside wall of the brewery that is accessible by tasting room staff.
