To Building Dept

The purpose of this email is to apply for a demolition permit for portions of the interior of a three family located at 29-31 Wilson Street on behalf of Vickery Wilson LLC (the new owner as of 11/13/15). The attached existing condition/demo plans reflect the extend of the proposed interior demolition but in summary it is primarily the demolition kitchens and laundry rooms on all three floors of the building. Within the next couple weeks I will follow this application with a building permit application for the proposed interior renovation.

Please let me know if you require more information.

I can be reached via email jvickery@vickeryinvestments.com or cell phone 617-877-0697.
