SIGNATURE OF APPLICANT

By signing this application, the applicant certifies that he or she has: (1) published the public notice form once in a newspaper circulated in the area where the project is located, (2) sent a copy of the public notice form to the owners of property abutting the land upon which the project is located, (3) sent a copy of the public notice form to the chief municipal officer and chair of the municipal planning board of the municipality in which the project is located (4) filed a complete copy of this application in the municipal office of the municipality in which the project is located, (5) reviewed the instructions contained in this application form, and (6) reviewed the appropriate state laws that relate to the proposed project.

I certify under penalty of law that I have personally examined the information submitted in this document and all attachments thereto and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the information is true, accurate, and complete. I authorize the Department to enter the property that is the subject of this application, at reasonable hours, including buildings, structures or conveyances on the property, to determine the accuracy of any information provided herein. I am aware there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

DATE: 7/20/17

NAME: Thomas Grant
(Applicant)

TITLE: AGENT
(If other than applicant, attach letter of agent authorization.)

PLEASE SEE ATTACHED FEE SCHEDULE TO DETERMINE THE APPLICATION FEE FOR FOR REDUCED PROCEDURE BENEFICIAL USE (ONE-TIME OR ON-GOING)

REQUIRED INFORMATION FOR A REDUCED PROCEDURE APPLICATION FOR BENEFICIAL USE OF DREDGE MATERIA AS FILL

1. Description. Provide a description of the dredge material and its proposed use. Include information regarding the physical and chemical characteristics of the dredge material, including all analytical results. Also include the quantities, by weight and/or volume of the dredge material expected to be beneficially used.

The dredge material will be placed on site to provide an area for gathering. It will be more than 25' from the stream and be covered with 6" of topsoil for a lawn area.

2. Schedule.

a. Proposed date of start of construction: September 1, 2017

b. Proposed date of completion: October 1, 2017

3. Topographic Map. Submit the most recent full size U.S.G.S. topographic map (7.5 minute series if available) clearly marking the location(s) of the beneficial use activity.

4. Title, Right, or Interest. Attach copies of deeds, leases, contracts or agreements that establish the applicant's title, right or interest for the proposed site.

5. Abutters. Attach a copy of the municipal tax map with the proposed site and names of abutting property owners clearly marked. Also, include a list of the names and addresses of all the owners of property abutting the proposed facility site:

6. Notice of Intent to File. Provide a copy of the completed "Notice of Intent to File" and evidence of compliance with the public notice requirements delineated in items 4, 5, and 6 of the instructions.

7. Financial ability. Submit evidence that affirmatively demonstrates the financial ability of the applicant to develop the project in a manner consistent with the State environmental standards and laws. Refer to Chapter 400, section 4.B for standards and submission requirements.

8. Technical ability. Include evidence that affirmatively demonstrates that the applicant has the technical ability to design, construct, operate, maintain, close, and (if applicable) accomplish post-closure care of the facility. If the proposed project will be managed by other than the applicant, state the persons or businesses that will be responsible for management and operation of the facility. This information should include the applicant's or operator's prior experience and/or appropriate training related to the nature of the proposed facility, and a description of the personnel who will be employed to design, construct, operate, maintain, close, and (if applicable) accomplish post-closure care of the facility.

9. Disclosure statement. This should include information on the criminal or civil record of the owner, operator, or anyone having a legal interest in the applicant or the facility, as described in Chapter 400, Section 12(A) of the Maine Solid Waste Management Regulations.

10. **Other authorizations**. Identify all environmental or land use licenses, permits, or authorizations which are or may be required by any governmental agency. Indicate those now held with an asterisk(*); indicate when the remaining licenses and permits will be obtained.

Building permit: _____ Waste discharge license: _____

Plumbing permit: _____ Highway entrance license: _____

Air emissions license: _____ Other (describe): NRPA 9/2017

11. **Traffic.** An applicant is presumed to meet the traffic standard of Chapter 400, section 4.D if:
(a) The beneficial use occurs no more than once in a calendar year at the same location;
(b) The beneficial use results in fewer than 16 additional vehicle trips per day; or
(c) The project beneficially using the secondary material has been permitted under the Site Location of Development Law.

Please submit evidence demonstrating that the use of dredge material in this project meets one of these exemptions. If it does not, submit information sufficient to demonstrate that the beneficial use of ash meets the standards and requirements of Chapter 400, section 4.D.

12. **Air Quality.** Submit sufficient information to demonstrate compliance with Chapter 400 (4) (G)-No Unreasonable Adverse Effect On Air Quality.

13. **Handling and Use Plan.** This plan must include provisions for the dewatering and storage of the dredge material as needed, and must demonstrate that the storage will not pose a hazard to public health and will not result in any illegal discharge of contaminants to waters of the State.

END
