

Note:

1. Project is to remove old porch at rear of building
A. Porch is an add-on and poorly constructed.
2. Only one door on second floor accesses the porch. This door will be framed, sheathed and sided with clapboards.
3. Egress from the building is by way of two stairways inside the building, front and back for all floors.
4. No electrical to the porch.
5. Concrete footings will not be removed.
