Subject: 56 Congress St Porch Rebuild Application for Permit
Attachments: 56congresspermitapp.pdf; 56 Congress St Porch Design Final.pdf; Picture of Porch.jpg

This is an application to tear down and rebuild an existing 3 story porch at 56 Congress St. Fire destroyed the porch. Porch will be built to exact dimensions of existing porch. 56 Congress St is a 3 unit Multi Family. Porches are private for each unit and do not act as a secondary fire exit. There are already 2 fire exits separate from porch in the building.

Attached are 1. Porch Design from Shelly Engineering 2. Permit application with drawing of multiunit interior floor plan 3. Picture of existing porch.

Please let me know that this email was received. Thank you.
