BUILDING PERMIT INSPECTION PROCEDURES Please call 874-8703 or email: buildinginspections@portlandmaine.gov

Check the Status of Permit or Schedule an Inspection at http://www.portlandmaine.gov/planning/permitstatus.asp

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the City of Portland Inspections Division for the inspections listed below. Appointments must be requested 48 to 72 hours in advance. The inspection date will need to be confirmed by this office.

- Please read the conditions of approval that are attached to this permit.
- Permits expire in 6 months if the project is not started or ceases for 6 months.
- If the inspection requirements below are not followed, then additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.
- Per Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC), one set of printed approved stamped construction documents will be kept at the site of work and open to inspection by building officials.

REQUIRED INSPECTIONS:

Close-in Plumbing/Framing w/Fire & Draft Stopping Above Ceiling Inspection Electrical Close-in w/Fire & Draftstopping Final - Fire Final - Electric Final - Commercial

The project cannot move to the next phase prior to the required inspection and approval to continue.

If the permit requires a certificate of occupancy, it must be paid and issued to the owner or designee before the space may be occupied.

389 Congress Street, 04101 Tel: (207) 874-8703, Fax: (207) 874	4-8716	2016-02988	12/14/2016	003 G004003
roposed Use: Proposed Project Description:				
Same: 3 Residential Condos	Unit 3-0	Convert small bedi	room to walkin clos	et and bathroom
Dept: Zoning Status: Approved w/Conditions Rev Note:	viewer:	Jennifer Thompso	on Approval D	Date: 12/22/2016 Ok to Issue: ✓
Conditions:				
1) Separate permits are required for electrical an plumbing installations.				
 This is NOT an approval for an additional dwelling unit. You SHALL NOT add any additional kitchen equipment including, but not limited to items such as stoves, microwaves, refrigerators, or kitchen sinks, etc. Without special approvals. 				
 This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work. 				
Dept: Building Inspecti Status: Approved w/Conditions Rev	viewer:	Laurie Leader	Approval D	Date: 01/06/2017
Note:				Ok to Issue:
Conditions:				
 Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all sleeping rooms, protecting outside these rooms, and on every level. 				
The same is required for existing buildings, where permanent wiring is feasible; or at the very least battery operated smoke detectors are required. Verification of this will be upon inspection.				
 Carbon Monoxide (CO) alarms shall be installed in each area within or giving access to sleeping rooms. That detection must be powered by the electrical service (plug-in or hardwired) in the building and battery. 				
3) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems, fire suppression and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.				
4) This permit is approved based upon information provided by the applicant or design professional. Any deviation from the final approved plans requires separate review and approval prior to work.				
Dept: Fire Status: Approved w/Conditions Rev	viewer:	David Petruccelli	Approval D	Date: 12/30/2016
Note:				Ok to Issue:
Conditions:				
 Single-station Carbon Monoxide (CO) alarms powered by the building's electrical service with battery backup are required within the dwelling units. CO alarms shall be installed in the following locations: (1) Outside each separate dwelling unit sleeping area in the immediate vicinity of the bedrooms (2) On every occupiable level of the dwelling unit, including basements, excluding attics and crawl spaces New CO alarms shall be hardwired. 				
 2) Hardwired single-station smoke alarms are required within the dwelling units. Smoke alarms shall be installed in the following locations: (1) All sleeping rooms (2) Outside each separate sleeping area, in the immediate vicinity of the sleeping rooms (3) On each level of the dwelling unit, including basements. New smoke alarms shall be photoelectric powered by the building's electrical service with battery backup. 				
3) Construction or installation shall comply with City Code Chapter 10.				
4) All outstanding code violations shall be corrected prior to final ins	spection.			

- 5) Through-penetrations and membrane penetrations in fire walls, fire barrier walls, and fire resistance rated horizontal assemblies shall be protected by firestop systems or devices in conformance with NFPA 101:8.3.5 (ASTM E 814 or ANSI/UL 1479). Providing firestop labels at each firestop system or device and an onsite manual containing the detail for each firestop system or device used for the project will streamline final inspection approvals.
- 6) All means of egress to remain accessible at all times.
- 7) Shall meet the requirements of 2009 NFPA 1 Fire Code.
- 8) NFPA 1 Fire Code Per 1.14.4 Review and approval by the AHJ shall not relieve the applicant of the responsibility of compliance with this Code.
