Good Evening

Attached are applications to alter an existing sink to a bar sink as requesting by Christina Stacey in the zoning apartment.

Please let me know if you have any questions or concerns.

I have a credit on file with the City of Portland so I was hoping to use that to apply towards this application fee.

Thanks!

Hi Chris,

I'm confused as to why he is filling out a building permit for this? The sink is staying in the same spot, and we don't need permits for counter tops getting changed out. I would think the only permit he would need is a plumbing permit?

Thanks,
Tori

I advised this because the third floor (where the sink is) is an illegal apartment. The permit would formally approve the third floor to be living space for the use of the second floor apartment. He did not make this clear in his application but I will get him to fix it once I start reviewing it.

Thanks,
Chris

Ok I'll put this through, then! Thanks for clearing that up.
