Hi Greg,

40 DIRIGO ST. – ADDITIONAL INFORMATION REQUESTED ON 5-25-17

The window sizes on the front of the porch for the two double hung windows would be 34 1/4" x 53 1/4" to match the existing windows on the first floor of the home. The two awning windows would be 17 1/2" x 47 1/2".

The porch floor is pre-existing (it is a fully covered front porch with the ceiling being part of the currently existing roof). I want to frame in above the pre-existing vinyl sided 2'x6' railing/knee walls with 2 x 6 lumber and add sheathing, windows and vinyl siding to match existing. The sheathing I would like to use for the existing walls would be 15/32" x 4' x 8' Douglas Fir plywood.

Thank you for your help. Please let me know if you require any additional information.

Sincerely,

Ryan Lombard
