Surveyor's Statement

I hereby certify:

That this survey was made upon the ground as per record description and as described in Volume 8015, Page 312 and in Volume 7056, Page 115 of the Cumberland County Registry of Deeds; that this survey conforms to the Maine Board of Registration for Land Surveyors Standards Category II, Condition II; that it shows the location of all improvements on the subject property; that it shows the location of all known easements of record affecting the subject property per the legal description; and that it depicts site characteristics on the ground which may adversely affect the boundaries of the subject property.

That there are no known encroachments either way across the boundary lines of the subject property except those shown.

That ingress and egress to the subject property is provided by Riverside Street which is paved, and dedicated as a public right-of-way maintained by the City of Portland Public Works Department.

That the location of improvements on the subject property are in accordance with all positional zoning laws regulating the siting of the structures on the subject property, applicable laws containing minimum setback provisions, and covenants and restrictions of record known to me except as shown.

That the subject property does not appear to serve any adjoining property for drainage or ingress and egress, other than as provided by record documents.

That the parcel described herein does not lie within a flood hazard area in accordance with the documents entitled, "National Flood Insurance Program, Firm Flood Insurance Rate Maps, City of Portland, Maine, Cumberland County."

This certification applies to the site conditions at the time of the field survey completed July 5, 1988. We make no certification to any site changes beyond or after that date.
