Hi,

There are not any specific exits or entrances and no sides. There are no walkways near this area or parking lots. This is just a structure for people to be under if it rains.

Typically, dimensions are needed to show area between the tents and walkways and parking lots etc.

Is the attached better? Do I need to call Dig Safe? This is the third year in a row in this location.

Thanks,

Pat, the plot plan needs to show the actual location of all tents and dimensions.

Good Morning,

Attached are the items needed for the 20 x 30 tent permit. I did not see anything about contacting Dig Safe. I have done this in the past, should I do it again?

Thanks,
