---

Good Morning Ann,

Enclosed, please find a map (layout) showing the location of the proposed single family home at the newly assigned E-911 street address of 210 Washington Ave.

I currently do not have the parcel line changes from assessing so I have left that information off of the map. When Suzanne receives that information from the Registry of Deeds then we will finalize the lot changes.

I recommend that the owners contact me at some point, as the project progresses, as I will need to send out an email notification message to the E-911 Street Addressing group.

Chuck -

I have attached a site plan for lot split at 218 Washington Avenue, CBL 010-A-015. Is there anyway that you can assign a street address now before the permit is issued to build the new single family home?

Thanks.

Ann
