

The main structure is a green wooden shed with a gabled roof. It features two large yellow double doors on the left side and a single yellow door on the right. The roof has two small yellow vents near the peak. The shed is built on a concrete foundation.

A white house with blue shutters and a small porch is visible in the background. A silver SUV is parked in front of it.

The foreground consists of a brick-paved area, likely a driveway or walkway.

A wooden trailer with a metal mesh fence is parked to the right of the shed. A wooden ramp is leaning against the side of the shed.
