## Conditions of Approval:

### Zoning

1. Separate permits shall be required for any new signage.
2. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
3. No retail shall be sold on-site. The bakery & creamery are low industrial manufacturing uses only with accessory offices.

### Building

1. Application approval based upon information provided by the applicant or design professional, including revisions dated received 9/14/12. Any deviation from approved plans requires separate review and approval prior to work.
2. Equipment shall be installed in compliance with the manufacturer's specifications and the UL listing.
3. New wholesale food production facility shall meet the requirements of the State Food Codes and the Dept. of Agriculture regulations. Inspections are required prior to the Certificate of Occupancy.
4. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
5. The future hood installation may require specific clearances or reduction of clearance methods to combustible construction.

### Fire

1. All construction shall comply with City Code Chapter 10. The occupancy shall comply with City Code Chapter 10 upon inspection.
2. This permit is being approved on the basis of the plans submitted. Any deviation from the plans would require amendments and approval.
3. Street addresses shall be marked on the structure and shall be as approved by the City E-911 Addressing Officer. Contact Michelle Sweeney at 874-8682 for further information.
4. **Commercial Cooking shall be in accordance with NFPA 96 and NFPA 86.**
5. Separate permits are required for hood ventilation systems and suppression systems.
6. Any Fire alarm or Sprinkler systems shall be reviewed by a licensed contractor(s) for code compliance. Compliance letters are required.
7. A separate Fire Alarm Permit is required for new systems; or for work effecting more than 5 fire alarm devices; or replacement of a fire alarm panel with a different model. This review does not include approval of fire alarm system design or installation.
8. The sprinkler system shall be installed in accordance with NFPA 13.

9. A separate Suppression System Permit is required for all new suppression systems or sprinkler work effecting more than 20 heads. This review does not include approval of sprinkler system design or installation.
10. Sprinkler protection shall be maintained. Where the system is to be shut down for maintenance or repair, the system shall be checked at the end of each day to insure the system has been placed back in service.
11. System acceptance and commissioning must be coordinated with alarm and suppression system contractors and the Fire Department. Call 874-8703 to schedule.
12. A Knox Box is required.
13. Fire extinguishers are required per NFPA 1.
14. Emergency lights and exit signs are required. Emergency lights and exit signs are required to be labeled in relation to the panel and circuit and on the same circuit as the lighting for the area they serve.
15. Any cutting and welding done will require a Hot Work Permit from Fire Department.

RE: Metering, 200 Anderson Street, Portland

Dear Mr. LaFlamme,

I have made a site visit to 200 Anderson Street, Portland, regarding the cubicle style lease units that have been constructed at this facility.

Although Central Maine Power, Handbook of Requirements for Electric Service and Meter Installations, Section 801B states: "As a general rule, in accordance with PURPA, each separately leased or owned unit in a building that contains more than one non-residential ( commercial ) unit will be separately metered", this concept of an open ceiling, rental by monthly or even weekly use, the existing one meter concept is acceptable.

Should the internal design change at a later date the metering will need to be upgraded and changed to meet CMP's requirement.

If you have any questions please feel free to call me at 828-2882.

Sincerely,

Paul DuPerre  
Energy Service Specialist
