RE: Metering, 200 Anderson Street, Portland

Dear Mr. LaFlamme,

I have made a site visit to 200 Anderson Street, Portland, regarding the cubicle style lease units that have been constructed at this facility.

Although Central Maine Power, Handbook of Requirements for Electric Service and Meter Installations, Section 801B states: "As a general rule, in accordance with PURPA, each separately leased or owned unit in a building that contains more than one non-residential (commercial) unit will be separately metered", this concept of an open ceiling, rental by monthly or even weekly use, the existing one meter concept is acceptable.

Should the internal design change at a later date the metering will need to be upgraded and changed to meet CMP's requirement.

If you have any questions please feel free to call me at 828-2882.

Sincerely,

Paul DuPerre
