Mike, as I discussed with you when you were here, and in the previous e-mail, this part of the application **must** be filled out in it's entirety; NA is NOT acceptable. This is a must. I have included the application again. Nothing can be done on this application until it is complete. I am still waiting with the check, however, if the complete application is not submitted soon, I will return the check, and this whole process will need to be re-started. Please RE READ the demo checklist and provide all the required documents.

Brad,

Electricity from the house by an underground conduit currently supplies the garage.

Mike, NA is not acceptable. Is there electricity going to the garage? You still have to call these and get a person and # responsible. We cannot put this forward until this is done. I will be deleting this one and will wait for the corrected one.

Mike, we are still waiting for the demo paperwork. We will have to receive that before any permit applications can be entered. I still have the check, but we really need a complete application prior to acceptance. Please remember this in the future. If you can get me the paperwork within the next 24-48 hours, I can enter, if not, I will have to send the check back and you will have to start over again.
