Tom and Bruce

This should be the last e-mail - its to confirm what I believe has now been agreed. If you have any further comments or concerns, pl let me know immediately!!!!

Crosswalk

the 2 "final " plans attached have been approved and will be built
the attached C40 shows details
the associated loss of one on-street parking space will be informed to Jeremiah and John P nearer the time the crosswalk is installed, and DPS via Mike B will advise the City Manager's office so that Clr Donoghue can be advised

Brick Apron

the "for CC" plan (only) will go to CC with brief report to get approval to the apron materials
I need a DPS e-mail that confirms the materials/details are OK (can say its subject to City not maintaining) to go into the Report
this has been delayed by the need to get an easement instead of a licence for the maintenance of the apron to be by the owner

Thanks

Jean
