Dear City of Portland,

I am applying to renew my expired building permit for my exterior structure that is 143 SF. My permit was originally issued November 2009. I worked on it for a number of years and then took a break due to finances. My permit thus expired due to inactivity. I would very much like to finish the project now. I am requesting consideration for a fast track permit since my plans have not changed (except instead of a stove, I will do electric heaters) and the project was left close to completion (see photos).

Thank you for your time!

I look forward to hearing back from you.

Kelly Nesbitt
