Hi Jeanie,

I added the building plot plan showing where our scope of work is. Also revised the permit, smokes are going to be by others and Jed is taking care of structural. I e mailed Jed to get the structural info. The only scope we have in the bathroom is the exhaust fan, I included a submittal for the fan and our spiral duct.

I will forward the structural info as soon as I get it.

Please forward the exhaust spec you have for distilleries, good info for us to have.

Thank you,

Mike Goodrich
