

**ROBERT T. GREENLAW, PLS**

November 12, 2012

The Inspections Department  
City of Portland  
389 Congress Street  
Portland, Maine 04101

Subject: Verification of the proper location of the foundation for the dwelling under construction at 104 North Street. Also, shown on tax map 12, Block Q as lot 004

On November 01, 2012, I personally supervised and directed the placing of the foundation corners (survey points) in the foundation hole at the above address.

The foundation was placed in the foundation hole at a distance of 4'-3-1/2" from the northerly property line and 9'-11-1/4" from the street line also known as the front property line. As shown on the approved site plans this also meets the required rear setback and northerly setback.

Forms were placed for the footing around these survey points. Then the forms were set on the footing utilizing the same survey points.

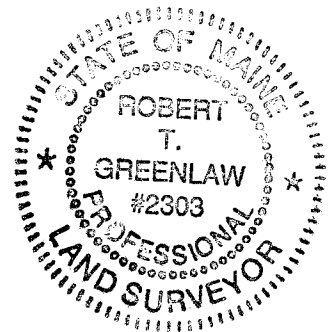

Please feel free to call or email should you have any questions or concerns.

Sincerely,

Robert T. Greenlaw, PLS
