

PUBLIC INFRASTRUCTURE AND SAFETY

123 CUMBERLAND AVE.

Applicable items:

Submit a code summary referring NFPA 1 and all Fire Department standards:

[Please see Fire Department site review summary 2019.01.29 - 123 Cumberland Ave](#)

Availability and Adequacy of Public Utilities:

Electrical services, including providing underground services:

[Project will use existing electrical system in the home; a new underground line will be run from house to proposed addition.](#)

Identify existing and proposed connections for public utilities and required public utility upgrades
Sewer line connections are required, if there is a main within 200 feet:

[Please see C1.0.](#)

Proposed solid waste management facilities on-site and management for the site:

[This is a residential building; occupants will use Portland's current garbage bag and recycling tote system. There is a proposed fenced-in location for the totes.](#)

Written evidence of the ability to serve from utility companies, as applicable:

[During Phase I interior renovations, it was discovered that a larger connection from the water main in the street is required to serve the proposed sprinkler system. The applicant expects work to be done in the spring.](#)
