---

Greetings,

Attached is my commercial interior building application, site survey and drawings. I spoke with the planner at your office Friday and I think this should be everything I need. The drawings are as follows:

- Site Survey from 10/07/13
- A1.0 Existing Plan with dimensions and egress
- A1.1 Plan Detail showing walls to be remove, location of new header, and location of new walls for closets.
- A2.0 Elevation of new header
- A3.0 Section of new header with wood specs and species.

Please let me know if you need anything further to complete my application.

Best,  
Pliny Reynolds
